REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1-4 are allowed over the prior art because none of the prior art documents discloses or suggests the reaction product of the claimed step A in claim 2 with an oxirane compound to form the aspartate of the claimed formula in claim 1.

Note that Appellants' arguments are based on the absence of alkylene oxides in the process of making polyether polyols from alcohols and alkylene oxides, in the papers submitted in on 4/30/2006. Therefore, alkylene oxides do not exist and do not have any chance to react with the claimed reaction product of the claimed step A in claim 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duc Truong whose telephone number is 571-272-1081. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
